

DRUG TERMINATOR

Destroys Evidence Drugs

 **ELASTEC**
Portable Incinerators

The ELASTEC Drug Terminator is a portable incinerator for on-site disposal of evidence drugs, paraphernalia and take back medicines. It eliminates costly trips to municipal incinerators. Materials are safely destroyed by injecting them with the patented Easy-Feed Cartridge. Sharps are sterilized and can be disposed according to community guidelines. Drug Terminator also burns documents, plants, food and other non-combustible, non-hazardous substances.

HOW DRUG TERMINATOR WORKS

Fueled with wood or charcoal, the ELASTEC Drug Terminator's high velocity blowers create a cyclone of intense heat. A whirlwind of combustion reduces the burned material into a tiny pile of sterile ash with minimal air emissions.

Simple and Safe to Operate.

- Ignite and wait for the fire to start.
- Plug in the ELASTEC Drug Terminator to a 120 (or 220) volt outlet.
- Clamp the ELASTEC Drug Terminator lid onto the barrel.
- Load the Easy-Feed Cartridge with drugs and paraphernalia.
- Inject into the ELASTEC Drug Terminator lid.

ACCESSORIES

Oil Away

The OilAway Attachment is an accessory for burning moist materials by injecting waste oil into the barrel during the burn cycle.

Easy-Feed Cartridge

Drug Terminator is supplied with one Easy-Feed Cartridge. Additional cartridges can expedite the injection process.

SPECIFICATIONS

Construction:	Stainless steel lid, painted tubular steel frame, two blowers, 120v standard (220v optional)
Height:	46 inches / 1.17 m
Floor Space:	36 x 26 inches / .91 x .66 m with drum
Average Burn Rate:	60 lb per hour / 22 kg per hour
Power Consumption:	.8 kW per hour 14 amps start - 27 amps run (110v) Recommend a 20 amp breaker

Law enforcement agencies, military police, drug task forces, Customs and Border Protection, universities, pharmaceutical companies, drug takeback programs, coroners' and prosecutors' offices, solid waste entities and medical marijuana facilities are finding the ELASTEC Drug Terminator to be a convenient, responsible and safe way to eliminate drugs on-site.
