

AMPHIBIOUS CRAWLER CARRIER

ALL-TERRAIN,
ALL-WEATHER
RESPONSE
VEHICLE

■ All Aluminum Construction

More durable than composite plastics or fiberglass. Lighter, relative to its strength and durability.

■ Hydrostatic Drive

Fully integrated hydrostatic closed-loop drive system with hydraulic circuit provides that either side (tracks or props) work independently from each other.

■ Tri-Mode Propulsion

Designed with a patent-pending hydraulic circuit and valve arrangement that allows three separate modes of operation: Tracks only, tracks and props, and props only. The control cables are stainless steel marine grade.

■ Towable Floating Trailer

An optional trailer that can carry equipment through any terrain.

■ Counter-Rotating Dual 11" Props

■ Foam-Filled Hull Cavities
