

ELASTEC

# D100

Diesel Hydraulic Power Pack

Oil Spill Equipment | Floating Barriers | Incinerators

The D100 is a compact but powerful diesel driven hydraulic power unit for operating a range of equipment. Typically it is packaged with the Ocean Skater weir skimmer. It features a quiet running water cooled electric start diesel engine mounted in a steel cage frame fitted with controls. Four large anti-vibration feet are installed at the corners of the frame. The open style allows excellent access for maintenance. Fork pockets and central lift point. A large capacity fuel tank is installed in the base of the frame. The hydraulic tank is mounted above the hydraulic pump and fitted with level / temperature gauge, filter and filler/strainer.

### Specification

|                       |   |
|-----------------------|---|
| Engine:               | Tier 4 118 hp/88 kW 4-cycle liquid cooled turbo charged diesel  |
| Max Hydraulic Flow:   | 31 gpm  |
| Frame:                | Skid mount with lifting bracket   |
| Hydraulic Tank:       | 58 gallons / 219 litres. Spin on return filter, fluid level and temp gauges, tank top filler/strainer |
| Fuel Tank:            | 36 gallons / 136 litres   |
| Hydraulic Connection: | Stainless Steel quick couplings   |
| Lifting:              | Central lift point and fork pockets   |
| Dimensions:           | 83 x 31 x 70 inch / 2.1 x 0.78 x 1.76 m   |
| Weight:               | 2,000 lb / 907 kg   |

Fabric cover included  
Optional spares kit available
