

**D7 HYDRAULIC POWER UNIT  
 OPOWEYA070**

The D7 is a compact and portable diesel driven hydraulic power pack for operating a range of equipment. This is the smallest skimmer power unit that we produce. Fitted with a single hydraulic circuit it is able to run an Elastec drum skimmer. Recovered oil can be collected from the skimmer using a separate pumping system.

This power pack features a hand and electric start diesel engine mounted in a steel cage frame fitted with hydraulic flow control. Handles and solid wheels are fitted so that the unit can be moved around the site. The open style allows excellent access for maintenance. A hydraulic pressure gauge shows the working pressures. This unit is also offered with high flotation tires and drop handles.

OPOWEYA071  
 32 x 38 x 36 inches  
 0.81 x 0.97 x 0.91m

**Specification**

Drive:	Air cooled Yanmar 6.4 hp / 4.8 kW Tier 4 (5.8 hp / 4.3 kW Net Continuous) diesel engine with 12 volt electric and recoil hand start
Max Hydraulic Output:	3 gpm / 11.4 lpm @ 2,500 psi / 172 bar Variable speed control
Frame:	Skid mount with lifting bracket
Hydraulic Tank:	8 gallons / 30 litres. Spin on return filter, fluid level and temp gauges, tank top filler/strainer
Fuel Tank:	1.25 gallons / 4.7 litres
Hydraulic Quick Couplings:	Stainless Steel
Lifting:	Central lift point
Fabric Cover:	Included
Dimensions:	43 x 36 x 34 inch / 1.09 x 0.92 x 0.86 m
Weight:	218 lb / 99 kg

The handles and wheels are removed for packaging.  
 Hydraulic fluid not included with units.

Optional: Spares kit, skimmer, pump, high flotation tires, drop handles
