

E25 ELECTRIC HYDRAULIC POWER UNIT

The E25 is a portable electric motor-driven hydraulic power unit for operating a range of equipment. Typically it is packaged with drum skimmers fitted with our ES400 recovered oil transfer pump.

The Elastec E25 Electric Hydraulic Power Pack features a quiet-running electric motor mounted in a steel cage frame fitted with controls. Four large anti-vibration feet are installed at the corners of the frame. The E25 has a laser-cut control panel with valves to control flow to the two hydraulic circuits (skimmer and pump). Twin hydraulic pressure gauges show the working pressures. The hydraulic tank is mounted above the hydraulic pump and is fitted with level / temperature gauge, filter and filler / strainer.

Specification:

Drive:	25 hp 220 v / 440 v 3 Phase 60 Hz Electric Motor available in TEFC or EXP	
Max Hydraulic Output (tandem pump):	Skimmer	5 gpm / 19 lpm @ 2,500 psi / 172 bar
	ES400 Pump	11 gpm / 41 lpm @ 2,700 psi / 186 bar
	Variable speed controls	
Frame:	Skid mount with lifting bracket	
Hydraulic Tank:	25 gallons / 94 litres. Spin on return filter, fluid level and temp gauges, tank top filler/strainer.	
Hydraulic Connections:	Stainless steel quick couplings	
Lifting:	Central lift point	
Dimension:	56.5 x 26 x 48.5 inch / 144 x 66 x 124 cm	
Fabric Cover:	Included
