EconoMax

Containment Boom

Oil Spill Equipment | Floating Barriers | Incinerators

The EconoMax Boom is a lightweight and compact containment boom suited to protected and calm waters. The flat panel floats allow this boom to be folded into neat parcels that can easily be stored in vehicles, boats, and truck ready for quick deployment by hand. EconoMax is an inexpensive boom manufactured in fully welded 22oz PVC material. The boom is fitted with handles and anchor points, as well as being offered with a variety of accessories such as anchors, lights, carry bags, repair kits, towing sets, and reflectors.
