

ELASTEC

MiniVac II

Portable Industrial Vacuum

Oil Spill Equipment | Floating Barriers | Incinerators

The ELASTEC MiniVac II is a high powered vacuum system that offers powerful vacuum abilities and easy mobility. The MiniVac II can go places that are simply not accessible by vacuum trucks. The wheels and handles can be removed so that the unit will sit in the bed of trucks etc.

The unit is ideal for working in remote areas such as beaches, pipelines as well as industrial locations. The MiniVac II can recover a wide range of liquids, oils and sludge with solids up to 2 inch / 50mm diameter. The diesel driven vacuum pump quickly generates suction and high air flow - oils are recovered into standard oil drums or our hopper device. A clutch is fitted to allow the pump to be disengaged for starting and shut down. The DrumIt vacuum head is supplied with the system, it shuts off suction when the drum is full and allows the operator to control the amount of vacuum.

The MiniVac II system is supplied with a DrumIt vacuum head that fills open top drums, hoses and a suction wand. The epoxy painted steel frame is fitted with central lift point and incorporates the electric start diesel engine driving the vacuum pump. The vacuum system is fitted with safety relief valve, cyclonic separator and exhaust.

Optional dry particulate filter head available upon request.

Specification

Frame	Epoxy painted steel with roll cage
Dimensions	62 x 51 x 46 inch / 1.57 x 1.29 x 1.16 m
Weight	710 lb / 322 kg
Drive	20 hp / 15 kW water-cooled three cylinder diesel with spark arresting muffler Clutch for disconnecting drive (Electric drive available on request)
Fuel Consumption	2.64 to 4.75 litre/hour
Fuel Tank	7 gallons / 26.5 litre
Vacuum Blower	Rotary lobe type, max 322 cfm / 547 cu.m/hour @ 15 inches of vacuum
Lifting	Central lift point fitted
Applications	Industrial and spill response
Vacuum Head	Suitable for 55 gallon open top drums, manufactured in stainless steel Fitted with vacuum bypass and shut-off
Accessories	Suction wand included
Hose Set	Two vacuum hoses each 3 inch x 15 ft / 4.5 m One hose 2 inch x 15 ft / 4.5 m

Optional Accessories

- All-Terrain tracks available for remote locations.
- 110 gallon All Terrain Vacuum Tank
- Vacuum Hopper

Removable chassis' make trailer transportation easy.
