

QUICKTANK DESCRIPTION

The ELASTEC QuickTank is a portable open top tank that can be quickly deployed for the temporary storage of liquids and other types of waste. It may be used in a wide variety of applications for oils, water, wastewater, contaminated trash. They are a useful tool for decontaminating people and equipment. The low sides provide easy access to the contents.

QuickTank is available in a range of sizes and can be customized to suit your requirements

Our QuickTanks are supplied in a fabric carrying case with assembly instructions. Available options include repair kit, drain valve, ground and top cover.
